DT 711 Anchoring System (Patent Pending)

Dovetail
(sized to fit WIRE-BOND #1304 Dovetail Slot)

- Designed for concrete backup walls and spray insulation applications
- Dovetail Plates (*DT 2401*) are inserted into vertical dovetail slots (*WB 1304*) forming a 24" x 16" spacing grid to meet **ACI 530** code requirements.
- Spray foam installer uses the holes on the legs of the plate as a guide for different thicknesses of foam.
- The DT 711 System ensures the correct thickness of insulation and saves the installer valuable time.
